VASCULAR | HR-DISPLAY DOPPLER SYSTEM

The Newman Medical DD 901 Table Top Doppler has breakthrough sensitivity and size. Extended Depth XD™ probes provide increased sensitivity at shallow depths (2-5 cm) where many early fetal hearts are located. Complementing the new XD probes is the state of the art Digital Signal Clarity (DCS™) of the Doppler signal.

Each DigiDop is designed with the sensitivity you need while also designed to be tough and last through years of everyday office use. All our products are **Made in the USA** in Colorado. Each Newman Medical Doppler and probe must pass a series of comprehensive tests to assure quality and the durability of each product.

American-Made Quality

- **Better Sound** - Digital Sound Clarity DSC™ produces up to 6x signal compared to other Dopplers
- **Better Warranty** - 5 year honest warranty - all parts & labor
 - Includes rechargeable batteries on rechargeable units
- **Better Support & Service** - knowledgeable staff and guaranteed service
- All Dopplers are designed, manufactured, and serviced in Colorado, U.S.
- 'Unbreakable' magnetic probe holder
- All probes are interchangeable
