JUST REAL HELP.

The simpleABI-500CL automated Cuff-Link system is an advanced PAD testing solution designed for clinicians requiring precise arterial blockage localization. Combining efficient automated cuff inflation with comprehensive segmental exam capabilities, it provides detailed leg blood flow mapping for accurate diagnosis and targeted treatment planning. 1 Like all Cuff-Link systems, it also offers dual testing capabilities, including the rapid, Doppler-free ABI-Q for quick screening by any staff member, and in-depth Doppler-based exams.

### simpleABI-500CL Features

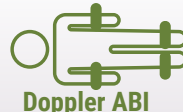

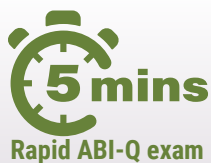

- Made in the USA with high-quality materials
- Comprehensive 2-year warranty coverage
- Great support: on-site, online or by phone
- Dual testing: ABI-Q and Doppler exams.
- Advanced diagnostics with segmental exams to pinpoint blockages.
