

Silent Threat, Powerful Solution

Peripheral Artery Disease (PAD) is a silent threat lurking beneath the surface. Plaque buildup narrows leg arteries, increasing the risk of heart attack, stroke, amputation, and even death. Traditional PAD testing methods can be time-consuming and require specialized training, hindering early detection and intervention.

Introducing SimpleABI Cuff-Link Systems from Newman Medical

simpleABI Cuff-Link systems offer a revolutionary approach to swift and accurate PAD testing, designed specifically for the needs of busy clinics. Empower physicians to diagnose PAD efficiently and confidently with this innovative technology.

Revolutionize Clinic Efficiency and Patient Care

- **Unique Dual Testing Capabilities:** simpleABI Cuff-Link systems offer both traditional Doppler and rapid PVR (ABI-Q) exams, catering to diverse patient needs.
- **Customizable Exam Options:** Every simpleABI Cuff-Link System comes standard with single-level, TBI, and rapid PVR exams. Segmental, exercise, and stress testing exam options can be added for a truly customized experience.
- **Accessibility for All:** The user-friendly PVR exam option (ABI-Q) eliminates the need for specialized training, making PAD testing accessible to all clinics.
- **Effortless Examinations:** Automated cuff selection and inflation streamline workflow and minimize errors.

In addition to its seamless operation, simpleABI Cuff-Link Offers:

- **Seamless Data Integration:** DICOM compatibility ensures effortless data transfer to existing electronic health record (EHR) system.
- **Comfort-Focused Design:** The adjustable roll-stand design prioritizes comfort for both patients and practitioners.
- **Reimbursable Accuracy:** Generate precise, full-page reports for accurate diagnoses and efficient reimbursement.
- **Industry-Leading Warranty:** Our 2-year warranty guarantees consistent performance and lasting value.
- **Proudly American-Made:** simpleABI Systems are designed and manufactured in the USA using high-quality materials.
- **Convenient Portability:** Easily move the system between rooms for optimal workflow.

Additional Features:

- **Versatile Printing:** Print clear, full-size reports on any printer, eliminating limitations of small thermal paper.
- **Backup Virtual Remote Control:** Offers peace of mind, ensuring uninterrupted operation.

simpleABI Cuff-Link Systems represent the future of PAD testing. Equip physicians with this powerful tool and empower them to deliver exceptional patient care.
